A: Common types of power distribution boxes used in event technology include portable distribution boxes for temporary setups, rack-mounted boxes for equipment racks, and outdoor distribution boxes for outdoor events. Each type ...

Tool Hangers. Not every tool fits easily inside a case, and not every tool needs to travel. When portability isn't required, tool hangers and brackets allow you to stow larger power tools and long-handled tools that don't fit comfortably into your tools chests and boxes. Specialized tools that you use less frequently are also good candidates for this type of storage.

Although batteries are commonly used in a wide variety of applications, these energy storage systems are required to exhibit a high energy density and power, as well as long charge-discharge cycles, high round-trip efficiency and safety, all the while maintaining a competitive cost against other battery types.
