

Acciona battery station Afghanistan

How does Acciona's battery station service work?

ACCIONA's battery station service makes it possible to buy a Silence motorcycle without the need to purchase the electric battery that powers it, reducing the cost of acquiring the vehicle by nearly 40%. This system allows customers to have a monthly battery subscription.

How will Acciona and Cepsa develop a battery swap network?

ACCIONA and Cepsa have reached an agreement to carry out a pilot test to develop a battery swap network at Cepsa service stations for the electric vehicles manufactured by Silence, a subsidiary of the ACCIONA Group. Through this alliance, both companies will promote new models of sustainable mobility.

How many battery swap stations will Acciona have in Spain?

ACCIONA's network of battery swap stations for Silence vehicles will have 100 charging stations in the main Spanish cities by the end of the year, with more than 1,000 battery swap units. The accelerated deployment of battery stations for Silence vehicles is due to the brand's leadership in Spain for four years in a row.

How does Acciona work?

When the driver detects a low charge level, he can use the ACCIONA Battery Station app to locate the nearest swap station and reserve a battery. Once he arrives there, he deposits the battery at an available charging point to take out another fully charged battery.

Why did Acciona launch its mobility services?

ACCIONA, a leader in the development of sustainable infrastructure and renewable energy, decided to launch its mobility services to stand by its strategic commitment to offer solutions that accelerate the energy transition and the fight against climate change's impact. ACCIONA has been a carbon neutral company since 2016.

How many electric scooters does Acciona have?

Since October 2018, ACCIONA has a shared urban mobility service with more than 12,000 electric scooters in Spanish and Italian cities. In 2021, ACCIONA acquired Silence, the leading European manufacturer of electric vehicles.
