

Several African countries have formally expressed interest to join the groundbreaking Battery Energy Storage Systems (BESS) Consortium, launched Saturday during COP28, which could revolutionise Africa's energy ...

A solar-plus-storage microgrid being deployed at an alloys mine in South Africa will feature a vanadium flow battery energy storage system, using locally sourced vanadium electrolyte. The micro, or mini-grid, will serve close to 10% of total electrical consumption required at the Vametco Alloys integrating vanadium mining and processing plant ...

Unlocking Africa's enormous renewable energy potential will require massive investments in solar and wind energy and battery energy storage systems (BESS) will help reduce the variability of electricity supply from the ...

In a note on the technical requirements of the tender provided to Energy-Storage.news, consultancies Clean Horizon and Harmattan Renewables said the tenders have challenging requirements around local economic development and locating the sites. The note was authored by Beatriz Barros and Corentin Baschet of Clean Horizon and Adam Terry of ...

Eskom, the public utility company of South Africa, has inaugurated a 20MW/100MWh battery energy storage system (BESS) aimed at mitigating the challenging situation facing the country's grid. A celebration event was held yesterday, 9 November, for the 5-hour duration Hex BESS project in the Western Cape Province town of Worcester.

Eesti Energia and a consortium of private companies are also launching separate, large-scale pumped hydro energy storage (PHES) projects, though these would come online in the late 2020s. Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024. This year it is moving to a ...

Solar PV module manufacturer JinkoSolar said that it will deliver a 1.2MWh battery energy storage system for an undisclosed customer in West Africa. The company is ranked as a member of the elite "Solar Module Super League" by our sister site PV Tech and in-house analysis group Solar Media Market Research.

USAID Laos Energy Security, a five-year activity funded by the United States Agency for International Development (USAID), supports the Government of Laos (GOL)" efforts to improve the planning, policies, and performance of the Lao energy sector.

Although Africa contributed only 3.3 % to global energy consumption in 2019 and 3.6 % to global energy-related carbon dioxide emissions in 2020, it possesses an abundance of renewable ...

By May 2023, this year had already seen more scheduled power cuts than the entirety of 2022, the report said. Deployment of batteries in commercial & industrial (C& I) and residential markets has been growing in South Africa as consumers look to protect themselves from load-shedding, but the report calls for a concerted effort at the national and municipal ...

Close on heels of its recent announcement on forming a new global unit focused on the hybrid and energy storage market, Indian EPC Sterling and Wilson has won a captive solar-diesel-storage microgrid project in Africa. ...

The share of energy investment in Africa's GDP rises to 6.1% in the 2026-30 period, slightly above the average for emerging market and developing economies. But Africa's energy investment in that period is still only around ...

Energy-Storage.news" publisher Solar Media will host the 3rd annual Energy Storage Summit Latin America in Santiago, Chile, 15-16 October 2024. This year's events bring together Latin America's leading investors, policymakers, developers, utilities, network operators, EPCs and more all in one place to discuss the landscape of energy ...

EDF (Électricité de France), in partnership with the Government of Laos, has taken a major step towards Southeast Asia's decarbonisation by signing a memorandum of understanding (MoU) to conduct feasibility studies for the Nam Theun 2 Pumped Storage Hydropower project. The project, which will have an installed capacity of up to 2,000 ...

It introduces the different ways in which storage can help meet policy objectives and overcome technical challenges in the power sector, it provides guidance on how to determine the value ...

The US and the European Union have made a fresh pledge to support green energy in Africa, which includes energy storage and off-grid power systems in its remit. Announced on Friday, the collaboration seeks to support ...
