

American Samoa cadenza company

Who is Cadenza Innovation?

Cadenza Innovation Inc. is an American developer and designer of lithium-ion battery technologies and energy storage solutions. The company was founded in 2012 by inorganic chemist and battery researcher Christina Lampe-nerud. Cadenza licenses its lithium ion cell architecture to global manufacturers for various energy storage applications.

What is Cadenza Innovation's supercell battery architecture?

Cadenza Innovation's supercell battery architecture is designed to stop propagation during thermal runaway. The design of the batteries combines properties from wound jelly rolls and large prismatic cells to form highly dense lithium-ion battery structures.

What is a Cadenza energy storage system?

The Cadenza energy storage system is a battery technology-based system that enables higher performance, lower maintenance, and a lower carbon footprint, resulting in a lower total cost of ownership compared to VRLA Lead-Acid batteries.

Why should you choose Cadenza Innovation?

Cadenza Innovation offers exceptional performance and critical data protection by combining innovative safety designs with the affordable advantages of lithium-ion battery technology. Their UPS product assures key system infrastructure function.

What is a Cadenza Innovation back-up power system?

Cadenza Innovation offers safe and reliable back-up power systems suitable for most IT installations in schools, libraries, and businesses. These units can be tied to solar, wind, or other electrical generation and can be configured for remote area use as a standalone product or in combination with another renewable energy source.

Where is cadenza headquartered?

The corporate headquarters is located in Danbury, Connecticut inside The Summit at Danbury office complex. In 2021, Cadenza announced a partnership with Rockwell Automation to establish high performance battery cell production lines.
