

Ampyr energy Kosovo

Who is ampyr?

Fortunately, AMPYR is an energy company created specifically to work within a competitive renewables world. We are an industry leader designed to make renewable energy more competitive, more stable, more certain and more secure for everyone. We have an enviable track-record in sustainable development and energy trading to partner networks

What is ampyr energy?

AMPYR Energy has been created by AGP's highly experienced partners to help accelerate the transition to a zero-carbon future and to realise the huge potential of that shift - for investors, for power users and for communities. 01 Presently developing a portfolio of over 12GW of renewable energy and battery storage assets globally

Why did ampyr energy acquire ampyr Energy USA?

The acquisition increases AMPYR Energy USA's presence in the southeastern U.S. and builds on our growing U.S. pipeline of over 4 gigawatts (GW) of carbon-free energy. "This acquisition marks an important step on our path to expand our solar and battery storage business in the United States," said Steve Semlitz, AMPYR Energy USA's Chairman.

How can ampyr benefit from a 100% green energy future?

But the removal of renewable subsidies and the move to 'merchant' price exposure means you need a unique kind of partner with the skillset to operate and optimise this 'new normal' to benefit from a 100% green energy future. Fortunately, AMPYR is an energy company created specifically to work within a competitive renewables world.

What makes ampyr energy a trusted investment and development partner?

AMPYR Energy's collaborative and proactive approach on the ground, combined with sophisticated centralised design and procurement capability, has earned it the reputation of being a trusted investment and development partner. AMPYR Energy offers centralised design, procurement and engineering services to maximise efficiency and economies of scale.
