

Andorra exergy group

Where is Andora Energy headquartered?

Andora Energy Corp is headquartered in Canada.

Who is exergy?

EXERGY is a global leading company in the design, engineering and manufacturing of Organic Rankine Cycle power plants for power production from renewable energy sources (geothermal, biomass, solar) and from exhaust heat recovered from industrial processes and power generation stations.

What makes exergy's ORC systems unique?

EXERGY's ORC systems stand out in the market for uniquely utilizing the pioneering technology of the Radial Outflow Turbine(ROT). EXERGY has a portfolio of over 300 MW of capacity installed or under construction.

The partnership provides a framework for cooperation between the EDF Group and the Principality of Andorra in the drive to fight climate change, replace fossil-fuels with low-carbon energy, and thereby decarbonise the economy and the region.

This range of services that Andorra offers is as wide as the organisations that it works with. It delivers these via a universal business model developed by founder and Managing Director, Steve Bean, in collaboration with a number of leading European academics and practitioners. Crucial to this model is an understanding of
