B-Energy is the market leader in sustainable quality products & services and is making these infinitely available for everyone in Aruba, Bonaire and Curacao. By Creating, Growing and Transforming we will do what matters most to our clients, partners, suppliers and our team members and when it serves humanity in a positive way.

Energy purchased during off-peak hours can be stored using battery storage systems. It can be activated to distribute electricity when tariffs are at their highest, lowering energy expenses. Battery storage systems can also be set up as an uninterrupted power source, which is a useful insurance policy for enterprises.

Fluence and Dispatch partner to deploy largest battery-based energy storage system in the Netherlands. The stand-alone battery is expected to increase resilience of the Dutch energy system and enable greater renewable deployment. The project will provide grid stability and store excess renewable energy.
