

When does AT&S open its first plant in Malaysia?

AT&S » News » AT&S opens its first plant in Malaysia this week The issuer is solely responsible for the content of this announcement. Leoben, 22 January 2024 - AT&S will officially open its first plant in Kulim, Malaysia, on 24 January 2024 and expects numerous guests from the world of politics and business on this occasion.

Where is AT&S based in Southeast Asia?

As an increasing number of multinational corporations flock to Batu Kawan Industrial Park in Penang to set up their manufacturing plants, Vienna-listed Austria Technologie & Systemtechnik AG (AT&S) has instead chosen Kulim Hi-Tech Park in Kedah for its first production site in Southeast Asia.

Why is AT&S a global Megatrend?

"It is exactly this global megatrend that pays into the strategy of AT&S because we will primarily grow in, and due to, the high-performance computing segment. This is why we have been expanding massively for many years and have pursued investment projects like our campus in Malaysia," says AT&S CEO Andreas Gerstenmayer.

Where are AT&S machines sourced?

AT&S is procuring 2,000 machines for its Kulim plant. Most of the high-tech equipment is sourced from Japan, the US, Taiwan and South Korea. "It's too early to talk about our Phase 2 investment in Kulim. Right now, we just want to focus on putting up our factory first.

Where does AT&S manufacture IC substrates?

AT&S has a global presence with production sites in Austria (Leoben, Fehring) and plants in India (Nanjangud), China (Shanghai, Chongqing) and Korea (Ansan near Seoul). A new high-end production facility for IC substrates is currently being built in Kulim, Malaysia.

What's new at AT&S?

The opening ceremony took place at the AT&S new administration building, which marked the completion of the key production plant of the world's leading manufacturers of high-end printed circuit board (PCB) and integrated circuit (IC) substrates.

Under the MOU Framework signed between the two companies, NUR Power will be providing solar energy for AT&S Kulim plant of 25MW in 2023 and up to 75MW by 2026 through a Power Purchase Agreement (PPA) for a period of at least 21 years.
