

# Avicenne energy Cabo Verde

Who is Avicenne energy?

We are a consulting firm specializing in high growth technology markets. Since 1992, we have rapidly established a solid reputation in Energy and Batteries, where we work with the largest players in the industry and organize a world-class conference, "Batteries". AVICENNE Energy is involved as partner in a large European project: CarE-Service.

Who is Avicenne?

Created in 1992, AVICENNE is a market research and consulting firm providing our clients with strategic, marketing, technical and financial information to support profitable growth. Every year we publish a report called "The Worldwide Rechargeable Battery Market".

What is the energy sector in Cape Verde?

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil - primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

How can Cape Verde meet its goal of 50% renewables?

Cape Verde can meet its goal of 50% renewables today by integrating energy storage. A 100% Renewable System is achieved from 2026, with a 20 year cost from 68 to 107 MEUR. Current paradigm doubles emissions in 20 years and costs range from 71 to 107 MEUR. The optimal configuration achieves 90% renewable shares with a cost from 50 to 75 MEUR.

Does Cape Verde have a wave energy potential?

In the case of Cape Verde, there is one study evaluating the wave energy potential which highlights the resource available, particularly for the northern islands, such as S. Vicente. Unfortunately, the study identifies the wave resource to match that of the wind.

Does Cape Verde have biomass?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Cape Verde: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

For over thirty years, Avicenne Energy U.S. has been fostering innovation and driving growth in the rechargeable battery and energy storage industries. We've been the go-to strategic partner ...

Cabeolica's latest projects could help Cape Verde achieve over 30% penetration of renewable energy by 2025, minister Monteiro said. Cabeolica owns and operates four wind farms with a combined capacity of 25.5 MW,

...

The Renewable Energy Atlas includes the strategic identification of resource potential, location and analysis of the solar, wind, pumped-storage, geothermal and wave resources, and resulted in the identification of 2.600 MW of ...

Eng. Alexandre Dias Monteiro Licenciado em Engenharia Mecânica, Pós-graduado em Engenharia Industrial e Mestre em Direito e Administração de Empresas. Foi Presidente do ...

Em Cabo Verde, os produtos e serviços da marca Shell são comercializados pela Vivo Energy. A história da Vivo Energy é uma história africana - uma das tendências demográficas robustas que proporcionam um crescimento ...

Advisory Services to Elaborate the Cape Verde Smart Grid Roadmap. Cabo Verde has set ambitious targets for renewables alongside improving security and quality of service. There is ...

Our work covers the entire value chain for all kinds of energy storage, not only Lithium ion but also lead acid, NiMH or fuel cells. Our small dedicated battery industry team has been operating for almost 20 years, working with large ...

Advisory Services to Elaborate the Cape Verde Smart Grid Roadmap. Cabo Verde has set ambitious targets for renewables alongside improving security and quality of service. There is a consensus that adopting Smart Grid solutions is ...

Solid waste can also represent an adequate option while ocean and geothermic energy are being tested, with uncertainties remaining as to their efficiency. Cape Verde has an estimated ...
