

How has Bulgaria's energy policy changed under Borisov?

Under the leadership of Prime Minister Boyko Borisov, Bulgaria's energy policy began to shift toward closer alignment with the European Union. Borisov's government, which came to power in 2009, was more sceptical of Bulgaria's heavy reliance on Russian energy.

Why is Bulgaria promoting self-sustaining energy solutions?

Bulgaria is also pushing for small- and medium-sized businesses to adopt more self-sustaining energy solutions, including solar energy and battery storage, to reduce dependency on the grid during peak consumption times. Source: IRENA

Does Bulgaria have a good energy mix?

In recent years, with the help of the European Community, Bulgaria has invested in key infrastructure projects with partners such as Greece, Romania and Serbia, which will benefit its energy mix in the long term.

What is Bulgaria's energy strategy?

Despite being a net electricity exporter, with major buyers like Romania, Greece, and North Macedonia, Bulgaria's energy strategy remains fossil-fuel dependent. The 2019 National Energy and Climate Plan indicated a long-term reliance on coal and nuclear, with no immediate phase-out in sight. 4. Future prospects
