

## Bahamas 2 solar panels 1 battery

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean. We specialize in commercial ...

Whether you are tired of high electricity bills or interested in a cleaner environment, we can help you harness the sun's energy to power your homes or businesses. Solar is a safe, high return on investment and natural energy that will save you money.

We use the latest inverter technology and highest efficiency solar panels to give you the best return on investment possible and a system that will work for at least 25 years. Our figures ...

2)Off grid systems (and battery backup) require batteries. Batteries add considerable cost to a solar system and you can expect, without exception, to get what you pay for. Cheap batteries will have you replacing those heavy batteries all too soon. An off grid type solar electric system is the most expensive alternative, but also very rewarding ...
