What is the Barbados national energy policy (BNEP)?

This Barbados National Energy Policy (BNEP) document is designed to achieve the 100% renewable energy and carbon neutral island- state transformational goals by 2030. These include: Provision of reliable, safe, affordable, sustainable, modern and climate friendly energy services to all residents and visitors.

Why is energy important for Barbados?

Energy is important for Barbados as it: fosters development within the energy sector through innovation and workable partnerships, promoting a strong economy and a healthy environment. It also aims to establish and maintain a sustainable energy sector, ensuring energy security, reliability, and affordability.

Why is energy conservation important in Barbados?

Providing Value To Barbados Through Ongoing Product Updates And Ongoing Innovation. Energy conservation is not just a buzzword; it's a responsible way of life. By reducing your energy consumption, you're contributing to a healthier planet. It's a win-win solution that benefits both you and the environment!

Does Barbados need a BNEP?

The BNEP provides a basis for building on these successes while seeking to expand the use of these and other renewable energy technologies such as wind and biofuels. However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore.

Should Barbados invest in fossil fuels offshore?

However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore. This patrimony will be pursued aggressively with the view to maximise foreign exchange gains from the export of any exploited hydrocarbons.

Why is environmental sustainability important for the energy sector in Barbados?

In the Ministry of Energy and Business in Barbados, environmental sustainability is significant in their programmes because it recognizes the impact on the Barbadian economy, considering the strengths, weaknesses, opportunities, and threats.
