

Elektroprivreda Crne Gore, owned by the Government of Montenegro, started the preparations to install battery energy storage systems. It is a pioneering move among state-owned power companies in the Western Balkans as well as in Southeastern Europe.

Elektroprivreda Crne Gore (EPCG), the largest electricity producer in Montenegro, has taken a significant step towards enhancing energy sustainability by adopting the Project Task for Battery Electro-Storage Systems (BESS). This project aims to support the country's transition to renewable energy by providing a solution for storing excess ...

EPCG Launches Montenegro's Largest Battery Storage Project. Elektroprivreda Crne Gore (EPCG), Montenegro's leading electricity company, has begun preparations on the installation of 245 MWh of battery energy storage systems (BESS). This step marks an important milestone in the region's energy evolution.

Elektroprivreda Crne Gore, owned by the Government of Montenegro, started the preparations to install battery energy storage systems. It is a pioneering move among state-owned power companies in the Western ...

BESS technology will enable the storage of surplus energy generated from renewable sources, reducing reliance on fossil fuels and supporting sustainable development. The project plans to use existing grid infrastructure for connecting to the transmission network, with proposed locations including the Hydro Power Plant (HPP) Perućica, EPCG's ...

Elektroprivreda Crne Gore (EPCG), the largest state-owned power company in Montenegro, has taken a significant step in energy innovation by preparing to install battery energy storage systems (BESS). This initiative is a first for the Western Balkans and Southeastern Europe, marking a crucial development in the region's energy landscape.
