Will Saudi Arabia build a 1GW wind & battery storage project in Kazakhstan?

Credit: ACWA Power. Saudi Arabia-based energy company ACWA Power has agreed to build a 1GW wind and battery storage project in Kazakhstan. The company signed an agreement for the project with the government of Kazakhstan and the country's sovereign wealth fund, Samruk-Kazyna.

Will ACWA Power build a 1GW wind & battery storage project in Kazakhstan?

Saudi Arabia-based energy company ACWA Power has agreed to build a 1GW wind and battery storage project in Kazakhstan. The company signed an agreement for the project with the government of Kazakhstan and the country's sovereign wealth fund, Samruk-Kazyna. The deal marks ACWA Power's entrance into Kazakhstan's renewable energy segment.

How will Kazakhstan's 1GW wind and battery storage project impact society?

The signing today exemplifies the remarkable progress of the 1GW wind and battery storage project, setting the stage for Kazakhstan's stride towards its clean energy ambitions. The transformative project will have a profound impact on the country's socioeconomic landscape, and we are truly honoured to be an integral part of this journey.

Which energy companies are building a 1GW wind farm in Kazakhstan?

Last December, TotalEnergies signed agreements with Samruk-Kazyna and KazMunayGas to build a 1GW wind farm in Kazakhstan. The Mirny project will have 200 turbines and be coupled with a 600MWh battery storage system. Later in the month, ACWA Power signed a \$2.4bn power purchase agreement with the National Electric Grid of Uzbekistan (NEGU).

Will ACWA Power Invest in Kazakhstan?

With the head of terms agreement announced earlier this year, the 1GW wind project represents ACWA Power's entry into Kazakhstan, and with an investment tag of US\$1.5 billion, marks the biggest Saudi investment in Kazakhstan's power sector to date.

Will Kazakhstan gain market share in battery materials?

The country wants to gain market share in battery materials such as lithium, cobalt, manganese, nickel and graphite amid rising demand for the materials, Sharlapaev said. Kazakhstan already mines manganese, but last year it launched processing of manganese sulphate and aims to eventually capture 10% of the global market for the battery material.
