What is mango power Union?

The Mango Power Union is the world's first battery system to integrate both home and portable power solutions. Its iconic look, all-in-one detachable design, and advanced energy storage technology deliver high performance with a unique aesthetic, and guaranteed safety.

Where is mango power located?

To achieve our goal of serving customers all over the world, Mango Power has established offices in United States, the Europe Union, Mainland China and Hong Kong, and has partnered with different local suppliers across the world to meet customers' needs wherever they are. Email us at Customer Support: support@mangopower.com

Does mango power have a battery?

Mango Power brings best-in-class battery technology, ease of use, and versatility to its new E model. The battery offers more than 6000 charge cycles which, even when used daily, should be among the last thing to fail. The power station supports sixteen output ports with six distinct outlets and an AC RV power port, making the E ideal on the road.

How much does a mango power E cost?

The base unit supports up to 3kW of AC output with a battery capacity of 3.53kWh, for an MSRP of \$4000, while an extra 3.53kWh battery will add \$2800 to the base price. A package including two Mango Power E, two extra batteries, and a mSocket pro that generates a two-phase output is just below fourteen grand.
