

Belize rayton company

Who is raytoncorp?

RaytonCorp is a business enablement arm that operates three wholly owned enterprises in the fields of Information Technology, Cyber Security, Forensics and Cyber Intelligence. Our people are at the core of our business and our success. With their contributions, energy, and vision, we continue to innovate and raise the bar for service delivery.

What is Rayton technology?

Rayton uses patented, particle accelerator-based technology to produce engineered wafers that can serve as the basis for next-generation electronics. Silicon semiconductors simply don't cut it anymore and it's time for a change.

Does raytoncorp offer managed IT services?

At RaytonCorp, we offer a full-stack of Managed IT Services to help businesses become more responsive to customer needs and more resilient to market changes. Our suite of Managed IT Services is designed to let you focus on your core business while we focus on ours.

Why should I invest in Rayton?

Your investment will help Rayton to develop a full proof-of-concept, which will, in turn, allow us to begin marketing our product. Looking forward; by diversifying the applications of our products, we will be able to strengthen ourselves for market entry.

Who is Rayton forensics?

Rayton Forensics specialises in Anton Piller orders and digital intellectual property matters. Rayton Connect leverages satellite technology to provide unparalleled internet access, ensuring businesses stay connected regardless of location. Our cloud-based VoIP services redefine business communication, offering flexibility and efficiency.

Why should you choose Rayton managed it?

We position IT as a vital business enabler which facilitates data driven decision making. The Rayton Managed IT suite of services are designed to let you focus on your core business while we focus on ours. Your organisation's cyber security posture can be an invaluable asset or a crippling liability.
