

South Korean energy company Kokam has secured a contract from Engie subsidiary Electricit  de Tahiti (EDT) to supply a battery energy storage system (BESS) for Tahiti's first virtual synchronous generator (VSG). ...

The state-of-the-art BESS, or VSG, will offset EDT's existing spinning reserve diesel generators, allowing the use of a greater proportion of renewable energy, and slashing diesel usage to the ...

South Korean lithium-ion battery solutions provider Kokam will supply a battery energy storage system (BESS) that will serve as a virtual synchronous generator, reducing local reliance on diesel generators on the ...

South Korean battery maker Kokam Co Ltd will install a 15MW/10.4MWh battery energy storage system (BESS) in Tahiti, French Polynesia. The energy storage system will help reduce the Island's diesel fuel ...

South Korean energy company Kokam has secured a contract from Engie subsidiary Electricit  de Tahiti (EDT) to supply a battery energy storage system (BESS) for Tahiti's first virtual synchronous generator (VSG).

Papeete, French Polynesia -- In 2013, Hinamoeura Cross, a 25 year-old Tahitian lawyer and mother, received a phone call that would change her life forever. After a routine blood test, the ...

The government of New Caledonia, a French overseas territory in Polynesia, has announced plans for a 150MWh battery energy storage system (BESS) to be deployed by IPP Akuo Energy. Authorities have enlisted Akuo, a ...

A BESS is typically comprised of battery cells arranged into modules. These modules are connected into strings to achieve the desired DC voltage. The strings are often described as racks where the modules are installed. The ...
