

ATEC BVI facilitates the transition to renewable energy in the British Virgin Islands and the wider Caribbean region. We are local leaders and pioneers in the development of the micro-grid energy production field. Solar energy in BVI. ...

Construction has started on a solar plus storage project on the island of Anegada in the British Virgin Islands for a November 2023 commissioning date. The announcement by the Government of the Virgin Islands on 29 December, 2022, said the project combining solar PV and a battery energy storage system has a combined capacity of 2.1MW.

Platts Solar Module DDP Europe 50-100MW, reflecting 28-70 days forward delivery to Rotterdam, Europe; Platts Solar Module DDP US 5-50MW, reflecting 28-60 days forward for delivery to US...

This is the latest quarter in which the European solar PPA price has fallen, since peaking at EUR76.84 (US\$82.61)/MWh in the final quarter of 2022, and the relative stability of European PPA ...

High development costs and an unstable regulatory environment have increased average solar power purchase agreement (PPA) prices in Europe to a new high of EUR76.84 (US\$82.4)/MWh in Q4 2022.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Overall, European P25 solar PPA prices increased by 11.4% in the final three months of last year, growing to €68.64/MWh (EUR76.84/MWh). This represents a 60% year-on-year increase. The market in the UK was particularly boosted by the Contracts for Difference (CfD) auctions, which solar was able to play into in 2022 for the first since 2015.

The report shows a drop in solar prices of 4.7% in 12 months to \$79.93/MWh (EUR73.20/MWh). This is the first drop in the price of solar PPAs in two years. For the first quarter of 2023, solar PPA prices sat at 47% higher than the first quarter of 2022, and 76% higher than the first quarter of 2021.

In response, SolarPower Europe has called on EU leadership to take seven steps to reverse the decline in solar prices, and provide a more stable foundation for the European solar sector.

Photovoltaic Price Index. Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the european market, which has become an invaluable industry tool.

While the procurement costs for inverters and storage are still largely stagnant, the prices for solar panels are skyrocketing, as are those for substructures and installation materials.
