What is fenecon industrial L?

FENECON Industrial L is the future-proof battery storage platform for industrial applications as the basis for grid-serving energy management. The power storage system offers high reliability thanks to decentralized power electronics. *Project-specific customization with standardized FEMS apps.

What does fenecon do?

At FENECON, we pursue the clear vision of the 100% energy transition. We design our electricity storage and energy management solutions to be future-proof so that a complete supply of renewable energy for electricity, heat and mobility is possible.

What is fenecon energy storage?

The FENECON electricity storage systems use the OpenEMS-based smart energy management system FEMS to enable grid-serving charging and discharging up to intelligent sector coupling of electricity, mobility and heat. At FENECON, we pursue the clear vision of the 100% energy transition.
