

Does Egypt need EEHC & Scatec?

The Egyptian Cabinet has already approved the cooperation agreement between EEHC and Scatec. This decision aligns with the government's commitment to increasing the country's renewable energy capacity. By embracing projects like the solar and battery storage initiative, Egypt aims to diversify its energy sources and reduce its carbon footprint.

What is a large-scale energy storage project?

The project aims at providing the scientific, technological and policy basis required for the development and implementation of large-scale energy storage in Egypt, enabling increased penetration of renewable energy sources in the Egyptian energy system.

Can batteries solve Egypt's Electricity oversupply problem?

Egypt is exploring the potential of energy storage through batteries to combat our electricity oversupply problem: As Egypt continues to suffer from a major oversupply of electricity, the country is in need of new ways to tackle the issue.
