How has Cambodia's energy sector changed over the past 20 years?

Cambodia's Energy Sector has made tremendous progress over the past 20 years. From experiencing frequent power cuts in the capital city, and having very limited electricity access in rural areas, the country is now able to ensure stable electricity access in Phnom Penh and a village electrification rate over 98%.

Does Cambodia have a strong energy supply?

Robust economic growth in Cambodia has led to a sustained increase in energy demand. From 2010 to 2019 total primary energy supply (TPES) increased by 64%, from 190,567 terajoules to 312,773 terajoules. Cambodia's energy supply remains heavily reliant on biomass, which accounted for 45% of TPES in 2019.
