

Rezolv is a highly experienced, independent renewable energy producer building a multi-gigawatt portfolio including wind, solar and battery storage that delivers clean energy across Central and South Eastern Europe.

We are a highly experienced, independent renewable energy producer providing clean power at a long-term, stable price for industrial and commercial users across Central and South Eastern Europe. Our business is built on a heritage ...

Renewable energy developer Rezolv Energy has achieved a significant milestone by obtaining regulatory clearance for a colossal 229 MW solar power project in Bulgaria. This project, located in Silistra, northeastern Bulgaria, is poised to become the largest solar facility in the country.

Why is Rezolv investing in Central and South Eastern Europe? Central and South Eastern Europe is a region which has historically relied on fossil fuels for most of its energy needs. Replacing fossil fuel production with renewables delivers the maximum possible emissions reduction impact, helping countries meet their climate targets and ...

We are a highly experienced, independent renewable energy producer providing clean power at a long-term, stable price for industrial and commercial users across Central and South Eastern Europe. Our business is built on a heritage of 15 years in clean energy and our senior team has decades of experience in the sector.

Rezolv, the latest investment from Actis' Energy 5 Fund, which represents US\$6bn of investable capital, will provide subsidy-free clean energy at a long-term, stable price for commercial and industrial users, and other off-takers, ...

Czech independent power producer (IPP) Rezolv Energy has signed engineering, procurement and construction (EPC) contracts with three companies to build a 229MW solar PV project in Bulgaria.

Actis-backed Rezolv Energy has selected three companies - CMC Europe, Solarpro and Green Solar Energy - to build the 229MW "St. George" solar park in Silistra Municipality in Northeastern Bulgaria. Construction work is due to start very shortly, with the plant coming onstream next year.
