Who is Doosan Lentjes?

Doosan Lentjes is a specialist engineering, design and construction business that provides proprietary waste-to-energy services and technologies, circulating fluidised bed (CFB) boiler technologies and air quality control systems (AQCS) to the thermal power generation, industrial and municipal sectors.

Doosan Power Systems builds, maintains and extends the life of power plants across the world. We unite the rich heritage of Doosan Lentjes and Doosan Babcock in advanced steam generation, waste-to-energy and nuclear with the global leadership of Doosan Infracore Power in the design and manufacture of turbines.

Doosan Infracore Power provides design and construction services for power plants, including fossil, nuclear, waste-to-energy and biomass incineration plants, and any manufacturing or petrochemicals application that requires turbo generator technology.

Doosan Infracore Power is an OEM steam turbine designer and manufacturer that provides systems, components and maintenance services to fossil and nuclear power generation plants, municipal waste-to-energy and biomass incineration plants, and any manufacturing or petrochemicals application that requires turbo generator technology.
