

Ecuador safari solar

How far do solar-powered canoes travel in Ecuador?

Kara Solar estimates that the four solar-powered canoes in Ecuador collectively travel 450 kilometers (280 miles) a month, as well as transporting the Achuar, have carried over 1,000 tourists. They are also used for school trips for local children, pictured.

How do you travel in Ecuador?

In a secluded part of Ecuador's Amazon rainforest, river transport is far more common than road travel. Here, boats glide along the Wichimi River, a wide channel that snakes through the dense foliage, and powering the silent vessels is the Ecuadorian sunshine.

How many Achuar boats are there in Ecuador?

Five boats, each boat topped with a sleek solar-panelled roof, are being used by 12 indigenous Achuar communities across a stretch of eastern Ecuador bordering Peru. The boats have been provided by Kara Solar, a non-profit organization based in the region.
