

Are effekta batteries reliable?

Our long-standing experience with emergency power systems and uninterruptible power supply units is our guarantee for the highest quality and reliability of EFFEKTA batteries. EFFEKTA batteries are modern AGM (Absorbent Glass Mat) accumulators. Low levels of self-discharge are achieved by bonding the electrolyte in glass-fibre mat.

What are effekta batteries used for?

On the basis of many years of experience, EFFEKTA batteries and control units have been optimized for use in UPS units, telecommunications systems, fire alarm and safety systems, medical appliances, photovoltaic applications and emergency lighting systems. The new EFFEKTA catalog with exclusive product innovations is here!

What makes effekta a good power supply unit?

Batteries constitute the heart of every uninterruptible power supply unit: The power storage units from EFFEKTA are based upon well conceived, tried-and-tested types of battery, and on innovative battery management solutions.

Why should you choose effekta?

Uninterruptible power supplies (UPS), accumulators, batteries or inverters and rectifiers from EFFEKTA means that you not only get optimum dimensioning - these products are also backed by precisely the right technology: As well as a comprehensive range of standard products, we can also produce bespoke systems to meet your precise needs.

Can effekta store solar energy?

With its new storage solution for solar power, EFFEKTA makes it cost-effective to store photovoltaic energy - particularly in the domestic sector. EFFEKTA is launching its summer season with a fully upgraded UPS range for office and office-related applications.

What's new at effekta?

EFFEKTA is launching its summer season with a fully upgraded UPS range for office and office-related applications. New Office & Home products for private users, the new tower UPS units for office environments with great performance data as well as great legacy products for virtually any conceivable UPS application.
