

Should you invest in solar energy in Poland?

As you can see, more and more models allowing the use of solar energy are appearing on the Polish market. The market is highly flexible, which is worth bearing in mind when planning an investment. Renewable energy auctions are the only support scheme currently in place for new photovoltaic power plants.

Does SSE Renewables have a 'solar PV' pipeline in northern Europe?

SSE Renewables has further expanded its solar photovoltaics ('solar PV') pipeline in Northern Europe, with the acquisition of a 400MW portfolio of early-stage projects in Poland from developer IBC Solar. This follows last year's acquisition earlier of circa 500MW of early-stage solar PV projects, also in Poland, from local developer, Optisol.

Will SSE Renewables invest in Poland?

No significant capex will be committed by SSE Renewables until final investment decisions have been taken. Richard Cave-Bigley, Director of Solar & Battery, SSE Renewables, said: "We see Poland as one of the fastest growing solar markets in Europe and these two deals enable us to develop our pipeline with European partners.

How big is the photovoltaic market in Poland?

The Polish photovoltaic market is one of the biggest in Europe. Out of 41.4 GW of total photovoltaic capacity installed in 2022 almost 5 GW was installed in Poland. This demonstrates the unwavering growth of investment in solar energy in Poland. Only Germany and Spain report a faster photovoltaic industry growth rate.

Is Poland a good place to start a solar energy cooperative?

But the Energising Communities: Transforming Poland's Power Sector with Locally-owned Renewables report finds that despite the immense public appetite for solar, communities that seek to combine their resources and launch an energy cooperative face a needlessly tough operating environment.

Will Optisol buy 900MW solar projects in Poland?

This follows last year's acquisition earlier of circa 500MW of early-stage solar PV projects, also in Poland, from local developer, Optisol. Taken together, the two solar portfolios bring the company's prospective pipeline of solar PV projects in Poland to 900MW.

6 ???&#0183; Poland& #39;s impressive progress in solar energy technology. Planned 19 GW of new solar projects show the growth potential. 1,500 construction projects mark a milestone in ...
