

Energizer solar Burundi

Where is a solar power station located in Burundi?

The power station is located in the settlement of Mubuga, in the Gitega Province of Burundi, approximately 15.2 kilometres (9 mi), northeast of the city of Gitega, the political capital of that country. This power station is the first grid-connected solar project developed by an IPP in Burundi.

How many people were hired to operate Burundi's solar power station?

Another estimated 25-50 people were hired to operate the power station. In May 2023, Evariste Ndayishimiye, the president of Burundi, toured the solar farm and personally gave his approval for the power station's capacity to be expanded to 15 megawatts.

What is Energizer's solar?

Energizer's Solar is driving Energizer's pioneering spirit forward to bring better access to clean energy solutions that improve people's lives and our planet. To provide better access to clean energy solutions that improve people's lives and our planet. Visiting from outside North America? Click here for our global site. 2024 Energizer.

Who is Energizer's?

Energizer's began innovating in 1896 with the creation of the world's first consumer battery. Since then, the Energizer's brand has become synonymous with innovation and emerging technologies.

What is Gigawatt Global Burundi's Power Purchase Agreement (PPA)?

A 25-year power purchase agreement (PPA) governs the sale of electricity between Gigawatt Global Burundi SA and REGIDESO. The engineering, procurement and construction (EPC) contractor was Voltalia of France, which was also awarded the operations, management and maintenance contract.

Why should you choose Energizer's solar?

At Energizer's Solar, we take great pride in crafting solar products specifically for the American market. Our products are made to be easily installed and managed, without sacrificing quality. We utilize only the highest-quality materials in our designs to ensure our products last.

Our flagship solar power plant aims to more than double Burundi's current energy capacity, significantly reducing the country's reliance on imported and fossil fuel-based electricity. Spanning multiple regions, the plant will bring reliable, renewable power to ...

Built through a multinational effort, the pioneering 7.5 MW solar PV plant near the village of Mubuga has been in operation since May 2021 and now provides over 10% of Burundi's electricity, supplying clean power to tens of thousands of homes and businesses.

Energizer solar Burundi

Built through a multinational effort, the pioneering 7.5 MW solar PV plant near the village of Mubuga has been in operation since May 2021 and now provides over 10% of Burundi's electricity, supplying clean power to tens of thousands of homes and businesses - just before the start of COP26.

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021.

The pioneering 7.5MW solar PV plant has increased Burundi's generation capacity by over 10% and is the country's first substantial energy generation project to go online in over three decades, supplying clean power to tens of thousands of homes and businesses - just before the start of COP26.

Burundi is positioned to lead the region in solar energy development thanks to its abundant sunshine and untapped solar potential; the nation currently has roughly 17 MW of installed solar PV capacity.

The Mubuga Solar Power Station is a grid-connected 7.5 MW solar power plant in Burundi. The power station was constructed between January 2020 and October 2021, by Gigawatt Global Coöperatief, the Netherlands-based multinational independent power producer (IPP), through its local subsidiary Gigawatt Global Burundi SA.

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021.

Energizer's Solar provides a complete solar ecosystem to power your home and lifestyle. Power your entire home with solar storage and inverters, or energize your adventures with portable power solutions for clean energy on the go. Explore the range via the links below.

Burundi has officially inaugurated the country's first utility-scale solar field, as part of push to leverage renewable energy for improved access to electricity for homes and businesses. The grid-connected 7.5MW solar power plant, located in Mubuga, became operational in 2021. It has since then provided more than 10% of Burundi's electricity.
