

Energy storage alliance Italy established

What is the EU state aid scheme for energy storage in Italy?

The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy. The scheme totalling EUR17.7 billion (US\$19.5 billion) will provide annual payments covering investment and operating costs for those developing, building and operating large-scale energy storage in Italy.

Are energy storage systems becoming more popular in Italy?

Terna, the Italian TSO who monitors energy storage installation trends in Italy, has recently confirmed this growing demand for storage systems. Terna have published statistics relating to the type and frequency of storage systems being constructed.

Are energy storage facilities regulated in Italy?

The Italian regulatory framework concerning energy storage facilities has been evolving rapidly in recent years. However, the legislation is relatively fragmented, given the high number of laws governing different aspects of energy storage facilities.

Does Italy need 9gw/71gwh of energy storage?

The Winners Are Set to Be Announced for the Energy Storage Awards! Italy's TSO Terna says it needs 9GW/71GWh of energy storage by integrate its renewables pipeline. Image: Terna. The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy.

Why are battery energy storage systems not being developed in Italy?

The development of Battery Energy Storage Systems (hereinafter "BESS") in Italy has been limited by the fact that the spread of renewable sources is not such as to produce significant price differences during the hours of the day yet. An unfavourable legal and regulatory framework has also contributed to the low diffusion of BESS.

Does Italy have a battery storage market?

This report is part of a series that analyses the battery storage market in select European countries. Italy has both a rapidly growing utility-scale market as well as a flourishing customer-sited battery storage market. Customer-sited storage adoption has been mainly driven by a combination of high electricity prices and generous tax incentives.

Storage in Italy: Terna o Around Euro 200 mln invested (Regulatory Asset Base -RAB) o Storage pilot projects - Terna spa 9 o Main target: contribution to grid security o Size [MW]: 16 MW ...
