

What is the first solar-plus-storage project in the Dominican Republic?

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional de Energía (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

Is Zenith launching a solar farm in the Dominican Republic?

Source: Comisión Nacional de Energía () Zenith Energy Corp SRL, a subsidiary of Blacktree Capital Management, has initiated construction of the 101.2-MWp Dominicana Azul solar farm in the Dominican Republic, launching a project that will boast the Caribbean nation's first battery energy storage system (BESS).

What is the Dominicana Azul solar project?

The Comisión Nacional de Energía (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December). Construction has started on the first major solar-plus-storage project in the Dominican Republic, featuring a 99MWh battery system.

How much power will the Dominicana Azul solar farm produce?

The Dominican national energy commission CNE said that the solar farm will have a BESS of 24.8 MW of power and 99.2 MWh of storage capacity. The Dominicana Azul plant will be capable of producing around 176.4 GWh of electricity annually for the national grid. Zenith Energy will build the facilities in the Cabrera municipality.

What is the Dominican Republic's energy transition strategy?

Since the Last Iteration The Dominican Republic is committed to promoting ambitious energy transition strategies that allow for earlier and deeper reductions in greenhouse gases. All actions implemented seek to make innovation, competitiveness and development compatible with the environmental commitments agreed at the national level.

Does the Dominican Republic have a sustainable development?

Sustainable development. The Dominican Republic has been, and will continue to be, a regional leader in attracting foreign investment.

"The SeaFloat installation adds a fresh innovation - the ability to site a hybrid thermal-storage project where land is scarce, and do so for less cost." The project, off the coast of the Dominican capital city of Santa ...
