

Will CIIF fund EV charging at McDonald's?

"Capital from CIIF will fund the roll-out of InstaVolt chargers at McDonald's sites across England, Scotland, Wales and Northern Ireland, all of which will be renewable energy powered and is fantastic for furthering the UK's leading role in the EV charging infrastructure market." Want the latest Electric vehicle news in your inbox?

Does McDonald's have EV charging points in the UK?

InstaVolt is partnering with McDonald's to roll-out electric vehicle (EV) rapid charging points across its Drive Thru restaurants in the UK. As McDonald's looks to play its part in a greener economic recovery, its ambition is to create a new nationwide charging network to support increasing demand for EVs.

Will McDonald's EV chargers decarbonise the UK's transport sector?

"McDonald's already has fantastic sustainability credentials with its recycled packaging targets and now it is partnering with InstaVolt to host rapid EV chargers to decarbonise the UK's transport sector as well as reducing tailpipe emissions to clean up the air we all breathe.

Will McDonald's create a new charging network for EVs?

McDonald's ambition is to create a new nationwide charging network to support increasing demand for EVs, as the business looks to play its part in a greener economic recovery.

Does McDonald's have EV rapid chargers?

McDonald's has partnered with InstaVolt to install electric vehicle (EV) rapid chargers at new Drive-Thru restaurants across the UK, making EVs a realistic prospect for more drivers than ever before

Does McDonald's offer EVs?

McDonald's also currently offers every company employee eligible for a company car an EV or hybrid option. As part of this announcement, it will strengthen that policy and now prioritise making EVs available to everyone eligible. Adrian Keen, InstaVolt's Chief Executive Officer, said: "We're committed to making our network the simplest to use.
