

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

What is the energy sector development project for Tuvalu?

The objective of the Energy Sector Development Project for Tuvalu is to enhance Tuvalu's energy security by reducing its dependence on imported fuel for power generation.

Where does Tuvalu electricity come from?

Tuvalu's power has come from electricity generation facilities that use imported diesel brought in by ships. The Tuvalu Electricity Corporation (TEC) on the main island of Funafuti operates the large power station (2000 kW).

What was the first large scale solar system in Tuvalu?

The first large scale system in Tuvalu was a 40 kW solar panel installation on the roof of Tuvalu Sports Ground. This grid-connected 40 kW solar system was established in 2008 by the E8 and Japan Government through Kansai Electric Company (Japan) and contributes 1% of electricity production on Funafuti.

Are low-income households benefiting from subsidization of tariffs in Tuvalu?

Purchasing electricity has been identified as the second highest household commodity expenditure in Tuvalu but consumption across the country is not even. Low-income households, especially in rural areas, may not be gaining a good share of the potential social, poverty, and gender benefits from subsidization of tariffs.

The mentor was a well-rounded mentor; she was a coach, friend, and sister. She went the extra mile for me. [...] I mostly worked on solar projects before; [...] however, my mentor's inputs ...

Overview Tuvalu's carbon footprint Tuvalu Energy Sector Development Project (ESDP) Commitment under the Majuro Declaration 2013 Commitment under the United Nations Framework Convention on Climate Change (UNFCCC) 1994 Solar energy Wind energy Filmography Renewable energy in Tuvalu is a growing sector of the country's energy supply. Tuvalu has committed to sourcing 100% of its electricity from renewable energy. This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its tropical location. It is somewhat complicated because Tuvalu consists of nine inhabited islands. The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Str...
