What's going on with cellcube & enerox?

The primary vanadium producer has entered into conditional agreement for a complex deal that will effectively increase its holding in Austria-based Enerox, better known by its brand name CellCube, from around 25% to 27.6%.

Is CellCube a subsidiary of Enerox?

CellCube Energy Storage Systems Inc. (CSE: CUBE) ("CellCube" or the 'Company') announces changes to its ownership of Enerox GMBH. Toronto, Ontario-- (Newsfile Corp. - August 4, 2020)

Who is enerox?

Enerox, (formerly GILDEMEISTER energy solutions GmbH) is a globally active service provider in the renewable energy sector with headquarters in Würzburg (Bavaria).

Who owns the majority of Enerox?

Under the Share Purchase Agreement, EHL now holds a 90% majority ownership of Enerox, with Cellcube retaining a 10% minority holding.

What if EHL hadn't funded enerox?

If EHL had not funded Enerox with an aggregate of EUR 3.7 million by 31 December 2021, Cellcube would have had the right to buy back for nominal value such proportion of 39 per cent of the share capital of Enerox as is equivalent to the shortfall in funding.

Who is cellcube?

CellCube intends to be a fully integrated producer of vanadium, vanadium electrolytes and vanadium redox flow batteries for the Energy Storage Market. We put 15 years of research and development into the CellCube to provide you with a top-notch energy storage system.

Under its trademark "CellCube" the US and Austrian based Enerox GmbH develops, manufactures and distributes Vanadium Redox Flow Batteries. "VRFB"s are sustainable, long-duration energy storage systems, improving and securing the consumption of energy from renewable sources.

Enerox, (formerly GILDEMEISTER energy solutions GmbH) is a globally active service provider in the renewable energy sector with headquarters in Würzburg (Bavaria). From development and construction of turnkey large free-space solar parks (utility scale), operation and maintenance (energy and services) to comprehensive energy solutions for ...

CellCube's strategy is to become a leader in long-duration energy storage solutions. CellCube has been developing VRFBs for two decades and has installations in over 130 sites worldwide. The majority of the

company's VRFB energy storage systems are installed outdoors

Bushveld first announced its intention to acquire Enerox from CellCube Energy Storage Systems Inc in November 2019. The Canadian company will keep a 10% share in the target. The deal is part of Bushveld Energy's strategy of establishing a VRFB investment platform to lead investments in VRFB original equipment manufacturers with attractive ...

Cellcube, officially called Enerox but better known by its brand name, has signed the five-year framework agreement with renewable energy developer Kibo Energy to deploy at least 1GW of storage in targeted Southern African Development Community (SADC) countries. The SADC comprises all 16 countries from South Africa up to the Democratic Republic ...
