

Pope Francis has commissioned an agrivoltaic plant to be located in the extraterritorial area of Santa Maria di Galeria that will ensure the complete energy sustenance of Vatican City.

Pope Francis, a vocal campaigner for action against climate change and on environmental protection, on Wednesday ordered the construction of a solar farm to cover the energy needs of the...

In Fratello Sole, Pope Francis roots the decision to embrace solar power in his own invitation "to all mankind," in the encyclical Laudato s', to make lifestyle changes to counter global warming and the "pervasive" use of fossil fuels.

Pope Benedict XVI kicked off the Vatican's green initiatives in 2008 by installing solar panels on its audience hall. But it has been Francis, 87, who has lambasted human-caused climate change and the fact that the world's most marginalised are paying the highest price for global warming.

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside...

Pope Francis said the Vatican is committed to "contribute to the efforts of all states" to address climate change challenges. The new plant aims to provide 100% of the energy for the Vatican City State.

In Fratello Sole, Pope Francis roots the decision to embrace solar power in his own invitation "to all mankind," in the encyclical Laudato s', to make lifestyle changes to ...
