

Exagrid datasheet Laos

What is ExaGrid?

ExaGrid provides tiered backup storage with a unique disk-cache Landing Zone, long-term retention repository, and scale-out architecture. ExaGrid's Landing Zone provides for the fastest backups, restores, and instant VM recoveries. The disk-cache Landing...

Is ExaGrid a good backup solution?

ExaGrid is extremely cost-effective, providing data compression for the most recent backup along with byte-level data deduplication for all previous backups. ExaGrid's byte-level data de-duplication technology stores only the changes from backup to backup instead of storing full file copies.

Does ExaGrid support multi-site topology?

ExaGrid supports the ability to have two or more sites in a multi-site topology. At each site, backup applications can write data to the ExaGrid in place of sending backup data to tape. This is called backup to disk (or D2D).

Can ExaGrid appliances be deployed in the backup application software?

and with ExaGrid there are no agents to deploy or manage. When comparing ExaGrid appliances deduplication in the backup application software, it is important to keep in mind that using deduplication in the backup application software typically requires greater resources on the backup

Does ExaGrid support Veeam accelerated data mover?

both the backup application as well as the backup storage. The combination of Veeam backups to the ExaGrid disk-cache Landing Zone, the integrated ExaGrid-Veeam Accelerated Data Mover, and ExaGrid's support of Veeam SOBR is the most tightly integrated solution on the market for backup application to scale-out backup storage. Commvault

How many TB does ExaGrid have?

ExaGrid offers building blocks in 1, 2, 3, 4, 5, and 10 TB units. These are not 1-10 physical TB, but rather systems designed for backing up their rated size of data AND include room for all the de-duplicated backup retention and history.

ExaGrid delivers better backups using the only hyper-converged secondary storage (HCSS) for backup with data deduplication purpose-built for all leading backup applications that leverages ...
