What do you know about the Falkland Islands?

And for those of you who might not know that much about the Falkland Islands, I also added a real brief history of the islands and a little bit about the Falklands War. The Falkland Islands are one of those rare places left where you can escape the modern world. Located 300 miles to the east of the bottom tip of South America.

What do you love most about the Falklands?

Located 300 miles to the east of the bottom tip of South America. Their remote location has left the Falklands a place for one of a kind wildlife encounters. Of all the places we've visited in recent years the Falklands are unlike any of the others - and I think that is what I grew to love about the Falklands the most.
