

# First quarter energy storage field

What is the highest energy storage capacity ever installed in Q1 2024?

HOUSTON/WASHINGTON, June 18, 2024 - The U.S. energy storage market set a first-quarter record for capacity installed in Q1 2024, with 1,265 megawatts (MW) deployed across all segments. This marks the highest storage capacity ever installed in a first quarter in the U.S., representing an 84% increase from Q1 2023.

Which states have the highest energy storage capacity in Q1?

According to Wood Mackenzie and the American Clean Power Association's (ACP) newly released US Energy Storage Monitor report, the grid-scale segment installed 993 MW, producing the highest Q1 on record for the grid-scale segment. Nevada, California, and Texas accounted for 90% of new grid-scale capacity added.

Why is the energy storage industry growing so fast?

"The rapid growth of the energy storage industry comes at a critical time, providing a solution to growing energy demand and increasingly variable weather conditions that are placing added stress on the grid," said John Hensley, Vice President of Markets and Policy Analysis at ACP.

ENGIE has surpassed 1.8 GW of operational Battery Energy Storage System (BESS) capacity across the United States, highlighting its rapid expansion in this sector to support grid needs. Since the start of 2024, the company has added approximately 1 GW of new BESS capacity to its North American portfolio. This milestone reinforces ENGIE's ...

Explore Sineng Electric's innovative energy storage solutions. Learn about their string PCS MV turnkey stations for the world's largest sodium-ion battery energy storage system. ... the commissioned project is also China's first 100-MWh-scale energy storage power station utilizing sodium-ion batteries. ... Tata Power Reports Record PAT ...

Simultaneously, energy storage technology made steady advancements, propelling the global energy storage industry into a phase of rapid development. With the installed capacity reaching record highs, a growing number of investors are now entering the scene, contributing to a gradual transformation of the industry landscape.

In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy Storage System (BESS) project. This groundbreaking initiative is supported by The Global Energy Alliance for People and Planet (GEAPP's) concessional loan ...

The Nigerian government inaugurates a 300KWP solar PV pilot initiative with Battery Energy Storage System (BESS) in Niger State, marking a crucial step in President Bola Tinubu's Renewed Hope Agenda for

## First quarter energy storage field

renewable energy. The project aims to enhance electricity accessibility, reduce costs, and strengthen collaboration in the renewable energy sector, ...

Through its innovative energy storage and solar-powered desalination solution, ATESS is helping Saudi Arabia transition toward a sustainable water supply model. This approach tackles water scarcity while advancing renewable energy and environmental sustainability goals. ... Execution of OMV Petrom's First Large Photovoltaic Project Begins ...

NextEra Energy, Inc. disclosed its first-quarter results for 2024, reporting a net income attributable to NextEra Energy on a GAAP basis of \$2.268 billion, or \$1.10 per share, marking a rise from the previous year's \$2.086 billion, or \$1.04 per share. ... The division experienced a record-breaking quarter for new renewables and storage ...

JinkoSolar, a global leader in solar and energy storage solutions, has been recognized by BloombergNEF as a Tier 1 manufacturer in the "BNEF Energy Storage Tier 1 List 3Q 2024". The accolade highlights JinkoSolar's SunTera G2 energy storage system, known for its innovative design, high efficiency, and safety features, driving advancements in the global ...

In 2024Q1, benefiting from the strong demand for energy storage batteries and the increase in the company's market share in the commercial vehicle field, the company's shipments maintained a rapid development trend. The profitability of the company's dynamic storage batteries is stable.

MUNICH, Jan. 22, 2024 /PRNewswire/ -- Trina Storage, the leading global energy storage solution provider, proudly announces its inclusion in the esteemed BNEF Energy Storage Tier 1 List for the ...

The recently released U.S. Energy Storage Monitor report, by the American Clean Power Association (ACP) and Wood Mackenzie, states that across all segments of the industry, in the first quarter of ...

JSW Neo Energy and Reliance Power have won the auction for the 1,000 MW/2,000 MWh Battery Energy Storage Systems (BESS) project from SECI in India. JSW Neo Energy secured 500 MW with the lowest tariff of INR3.810 lakh per MW per month, while Reliance Power won another 500 MW with the second-lowest tariff of INR3.8199 lakh per MW per month.

Trina Storage's continued dedication to research and development has propelled its success in the energy storage market. Trina Storage possesses comprehensive in-house research & development ...

Enlight Renewable Energy Ltd. announced the financial close for the Energy Storage portion of its flagship Atrisco Solar and Energy Storage project, located outside Albuquerque, New Mexico, USA. This milestone completes the financing and tax equity arrangements for the entire Atrisco project, following the financial close of the Atrisco Solar ...
