French Polynesia 6kw battery bank

GSL ENERGY announced that the company has supplied home solar energy storage system for a Polynesia"s solar off grid project, which is installed with a capacity of 20kwh Lifepo4 Lithium battery and 5kva smart inverter.

"Thanks to the integration of the battery-storage system with a capacity of 2.6 MWh, 60% of the electricity supply now comes from solar energy. The island"s grid quality was also improved once again.

In French Polynesia, the lack of local recycling channels makes the management of used batteries costly and environmentally problematic. The opening of the Be Energy center in Tahiti marks a significant milestone in the ecological transition in French Polynesia.
