

The Ayemé Plaine Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each.

The companies selected by Ausar Energy and ENGIE Africa to install the solar power plants in Gabon, namely Sagemcom and Engie Maroc, have carried out comparable installations in Morocco, Cameroon, Burkina Faso, Niger, Tanzania, Madagascar and Zambia.

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ayemé Plaine photovoltaic solar power plant, a locality located some thirty kilometres from the capital Libreville. The future ...

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ayemé Plaine photovoltaic solar power plant, a locality located some thirty kilometres from the capital Libreville. The future facility will have a capacity of 120 MWp.

The 8 solar power plants we will build will save one million litres of fuel oil per year, or 2600 tonnes of CO₂, and reduce production costs by 30%. Installed near isolated villages, they will supply nearly 1600 homes.

The 8 solar power plants we will build will save one million litres of fuel oil per year, or 2600 tonnes of CO₂, and reduce production costs by 30%. Installed near isolated villages, they will supply nearly 1600 homes.

A new solar power plant will soon be built in Gabon. The authorities are planning to build the plant in Ayemé Plaine, a locality located about 30 km from the capital Libreville.
