

Georgia bluewater energy services

Who is Bluewater Energy?

Bluewater Energy provides focused technical services to the energy and industrial marketplace from facility or program conception, startup & commissioning to long term operation. Bluewater understands your business and provides strategic solutions that give you a competitive advantage.

What does Bluewater do?

Bluewater understands your business and provides strategic solutions that give you a competitive advantage. Providing startup & commissioning, pre-commissioning, operations training and staff augmentation for the energy sector.

Who is Bluewater mooring & energy production?

At Bluewater we use our decades of experience to provide safe and reliable offshore solutions. We take pride in being one of the technological leaders for offshore mooring and energy production systems. We take care, think dynamically, are inspired to make impact and are committed to deliver.

What services does Bluewater offer?

The company also provides operational and logistic management and support for FPSO and FSO systems, and currently holds and operates five FPSOs. Bluewater has developed some of the most innovative SPM solutions, including catenary anchor leg mooring (CALM) buoys and tower, internal and external turret mooring systems.

What is Bluewater FPSO?

This includes solutions for renewable energy as well as continued development of existing energy related solutions to give answer to the continuing, global energy demand. Bluewater owns and operates a fleet of high specification FPSOs designed to operate in the harshest environmental conditions, under the most stringent regulatory regimes.

What mooring systems does Bluewater offer?

Bluewater has developed some of the most innovative SPM solutions, including catenary anchor leg mooring (CALM) buoys and tower, internal and external turret mooring systems. Bluewater's tidal energy converter (BlueTEC) is an open-architecture floating support platform suitable for tidal turbines.
