Critical Energy needs" About the Company Brass Petroleum Product Terminal was Established in 2021 as a joint venture between Nigeria National Petroleum Corporation (NNPC), Nigeria Content Development and Monitoring Board (NCDMB), ZED Energy

With ever-increasing energy costs, utilising your roof space for solar power can prove to be a great decision. There are many benefits of investing in residential solar panels. We make the whole process simple to instal. We can provide customised solar power solutions as per your energy consumption needs.

Whether you are looking to develop a renewable energy project, explore opportunities in the oil & gas sector, or undertake a mining project in Africa, we are here to help, and we look forward to learning about your project and adding value.

It is sustainable electricity generation that does not deplete the earth's finite natural resources. Wind and solar energy produce zero greenhouse gas emissions. Electricity is an integral part of our society in every community. ZED understands the great potential for developing renewable energy power generation projects in Canada.
