

Gkinetic energy ltd Heard and McDonald Islands

Who is gkinetic energy?

GKinetic Energy Ltd. was founded in 2014 and is based in Newcastle West, County Limerick in Ireland. GKinetic is developing a range of innovative hydrokinetic turbines for both river and tidal flows. From the start, one of the main drivers has been the huge market opportunity to harness this reliable and predictable renewable energy resource.

Is gkinetic energy a strong EU-based Innovative Technology?

Many projects exist in the EU to move forward along this path, and GKinetic Energy is a perfect illustration of a strong EU-based innovative technology. GKinetic Energy Ltd is an Irish-based company developing innovative hydrokinetic turbines producing clean energy from canals, rivers and tidal flows.

Who is gkinetic?

GKinetic is an Irish startup operating in the sector of hydrokinetic turbines. Its ambition is to improve the existing hydro devices, exploiting tidal energy to offer clean, predictable energy from free-flowing water, with minimal impact on the natural environment.

How does gkinetic work?

GKinetic are leading developers of innovative, patented turbines that work with nature to generate 100% clean, predictable energy from free-flowing water. We offer a clean, sustainable alternative to diesel generators and unlike competing hydrokinetic devices, our turbine works at average, lower flow speeds.

What is gkinetic technology?

GKinetic's technology is ideally suited to island applications. The device is floating and can be moored like a boat. Due to its innovative design, it does not require blocking flows or major civil works. It can be deployed in sites as shallow as 1.8m.

Does gkinetic have a blueinvest readiness programme?

In 2020, the BlueInvest Readiness programme has been recommended to GKinetic by a company benefitting from the assistance themselves at that time. The company applied to the coaching programme and was selected as a beneficiary the same year.
