What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is a solar for all grant?

The Solar for All grants aim to speed up that shift, says David Widawsky, director of the EPA's Office of the Greenhouse Gas Reduction Fund, which manages the program. But it isn't just rooftop solar. Widawsky says the money will also go toward batteries that allow solar customers to store their energy.

Is solar energy a climate solution?

The federal government pours \$7 billion into solar energy for low-income households. The Biden administration is betting more solar energy for low-income homes can both be a climate solution and good for pocketbooks.
