

What is a 'territory' in French energy policy?

The notion of 'territory' has only very recently attracted interest in the French energy policy arena, as attested by the 2014 National Debate about the energy transition and the July 2014 draft law on it.¹ 'Territory', 'local' or 'collectivity' here signify a realm that has a variable perimeter.

Is a French energy policy localism a risk-and-error transcalar process?

The paper bears witness to the emergence of a French energy policy localism. It presents a sample of significant local rural experiences in the climate energy domain in rural France. These experiences are risky, trial-and-error transcalar processes. They amount to a different way of doing energy policy.

Is there a wholesale energy governance reform in France?

Thus, there is wholesale energy governance reform. Almost three years after the adoption of the Energy Transition for Green Growth Law, this article aims at presenting the new energy governance framework in France.

How can a territory be empowered?

Empowering territories in a constructive approach: for example, by setting up a mandatory quota of 'priority areas for wind power' per territory, allowing to operate on a very accelerated authorization procedure, similar to what Germany has put in place since summer 2022 with the 2% rule.
