

Greenlinx battery Lesotho

Are greenlinx batteries any good?

The Greenlinx batteries have very limited performance reduction compared to all other domestic home solar Lithium batteries; they remain at full capacity down to zero degrees. In addition, each battery has superior charge rate of 40Amps and discharge rates of 60Amps which means faster charge and discharge capability.

Who makes greenlinx batteries?

Greenlinx have developed a range of batteries to push the technical boundaries of performance, temperature management, monitoring and technical support. Greenlinx are exclusively distributed by Infinity Innovations Ltd. in the UK and Europe. While they are quite recent to the UK market they are by no means new to the battery storage industry.

How many greenlinx batteries can be connected?

Modular - from 1 to 8 Greenlinx batteries can be connected. **PRICE INCLUDES INSTALLATION** Good communication before and after I purchased an extra 6.5kW battery for my existing system. Battery arrived within the time stated. Friendly and knowledgeable installation team arrived on the same day and fitted battery without a hitch.

How does a greenlinx 3200 HPD lithium battery work?

Each Greenlinx 3200 HPD Lithium battery has an individual modem built in, which means simple connection of each battery to the internet allows specific monitoring, technical support and future upgrades should it be needed.

How does greenlinx Harnitek work?

Greenlinx Harnitek uses HPD lithium to achieve market leading charge and discharge levels. Smaller than other batteries this great looking battery has built-in modem to allow single batteries to be monitored online. Long and short cables provided with every unit, just plug and play set up for the most efficient battery we have ever distributed.

Who is greenlinx?

Greenlinx is an established manufacturer of renewable technologies and battery storage solutions. The domestic and commercial battery solutions are distributed globally with a very strong market share.
