

Greentech corp Tonga

What is GreenTech innovations?

At GreenTech Innovations, our vision is to lead the world towards a sustainable and resilient future by transforming the way energy is produced, consumed, and managed. We aim to be the global leader in clean energy solutions, driving the adoption of renewable energy technologies and fostering a culture of environmental stewardship.

Who does GreenTech work with?

Greentech works directly with PG&E, Southern California Gas, Metropolitan Water District, Edison, LADWP and other major utilities as a designer and implementer of energy efficiency and water conservation projects for the industrial end user.

What is GreenTech?

To date, GREENTECH CORP. has secured over \$5,000,000.00 in rebate incentives from the major utility companies for our products and projects. Our company principle has been grounded on the belief of a need and demand for a more sustainable and "eco-friendly" industrial manufacturing process.

Where does GreenTech provide equipment (systems)?

Greentech provides equipment (Systems) to mainly in USA, Canada, Central America & South America with engineering quality and support

How will Tonga move away from fossil fuels?

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

How can Tonga transform its energy sector?

The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030. However, achieving these targets require catalytic investments to transform the country's energy infrastructure.
