Founding Partner by Nubian

How has Yetu smart grids changed our business?

"The collaboration with Yetu Smart Grids has been truly transformational for our business. It allowed us to breach technological barriers (integrating different power sources in our grid) and overcome business model limitations (monetising all excess power as an off-grid player) providing us with a strong competitive edge.

Do we really need a smart grid in Kenya?

Not at all, here in Kenya we put this into practice every day with Hydrobox and Yetu Smart Grids. It is so much more exciting and satisfying to be part of that revolution than standing on the sidelines shouting and clinging to old structures.

What is the Yetu smart energy for Schools Fund?

The Yetu Smart Energy for Schools Fund provides reliable and affordable solar power installations in Kenyan schools. Its goal is to electrify 12 schools, benefitting over 6000 students, while educating them about renewable energy to inspire a greener future generation.
