

Holcomb energy Austria

What is Holcomb energy systems?

Holcomb Energy Systems is setting a new industry standard in electric power generation. Our core technology, the Holcomb Energy System (HES), is an entirely new source of energy -- using no fuel and putting out zero emissions, it is scalable, silent, and a point of use.

Where can the Holcomb energy system be deployed?

The Holcomb Energy System can be deployed in areas where no electrical grid infrastructure exists. One in five people worldwide are living with no electricity and millions more have just intermittent access. We can make rural electrification accessible, affordable and 100% clean.

Why was Holcomb energy systems showcased at the new energy technology conference?

Thrilled to have virtually showcased Holcomb Energy Systems at the New Energy Technology conference in Zurich, Switzerland. With over 300 participants gathered at the auditorium, it was an honor for us to share our innovation on such a significant platform.

Who is Dr Holcomb?

Dr. Holcomb is passionate about the environment and focuses much of his time, energy, and intellect on creating accessible, affordable, and sustainable solutions to try and solve the widespread environmental challenges facing our world. The Holcomb Energy System is his most groundbreaking invention to date. Developer. Manager. Co-Founder.

Who is Astra energy?

Astra Energy is an integrated solutions provider investing in and developing clean and renewable energy projects in markets where demand is high, supply is limited and there is an opportunity to address other imminent market needs.

Dr. Holcomb has also patented numerous environmentally friendly products, processes, and devices, including a CO2 converter that captures CO2 in power plant emissions and in the atmosphere and ...
