

Chinese energy company Shanghai Electric has announced the completion of Phase B of the 900MW fifth phase of the Mohammed bin Rashid Al Maktoum Solar Park in Dubai, United Arab Emirates (UAE). Part of one of the ...

The project is expected to power approximately 160,000 households across the UAE, with a tariff that is one of the most competitive in the world. It demonstrates the leadership role played by Emirates Water and Electricity Company, with its partners EDF-R and Jinko Power, in the energy transition in the Middle East.

Dubai has inaugurated the world's largest concentrated solar power (CSP) project within the 950MW fourth phase of the Mohammed bin Rashid Al Maktoum Solar Park in the UAE. The project was launched by UAE Prime Minister and vice-president Sheikh Mohammed bin Rashid Al Maktoum.

During their discussion, Wong presented an Expression of Interest from Gatoson (Holdings) Limited, a company based in Hong Kong that manufactures solar cells, modules, and panels. Gatoson expressed its ...

The controlling parties of Dubai 700MW solar thermal + 250MW photovoltaic solar power plant project are Dubai Water and Electricity Authority, Saudi International Water and Electricity Company and Silk Road Fund.

Built on the world-leading tower and leveraging trough solar thermal power generation technologies, the project overcomes the limitation that conventional PV power stations cannot generate electricity at night, making it ...
