Home Power Solutions has the clear goal of revolutionising the world's largest sector consuming fossil energy - building energy - which accounts for 40%. With our products, we're pioneering solar hydrogen, an energy source that's not only CO₂-free, but also makes independence and security of supply possible for every home.

The first year-round electricity storage system for your home. There is nothing comparable on the market worldwide. picea stores solar power from your own roof for your home - especially for the winter months. 24 hours a day and up to 365 days a year, 100% CO₂-free.
