

# Iceland ib vogt gmbh

What is ib vogt?

ib vogt is a leading utility-scale solar development platform with a global footprint and a 20-year track record. Our OECD-focused development strategy, world-scale development pipeline, investments in BESS technology, and independent power producer ("IPP") business model strongly position ib vogt for accelerated near-term growth.

When did ib vogt become a company?

2002: Incorporation of ib vogt GmbH, focusing on PV factory engineering and project management. In the period up to 2009, ib vogt became one of the leading worldwide companies in this field. 2009: Start of a new era, focusing on utility-scale PV plants.

How many employees does ib vogt have?

The company works together with numerous partners globally, augmenting its in-house team of over 700 staff. ib vogt has built or has in construction more than 3.1 GW of PV power plants globally with a project pipeline of more than 45 GWp.

Where did ib vogt come from?

Initial markets were Germany and UK, where ib vogt became no. 2 in the industry in developing and delivering turnkey PV plants to our client base. We delivered the first utility-scale plant in Egypt and in 2018 constructed the largest solar plant in the Netherlands at the time. Further multiple market entries.

When did ib vogt start construction?

Construction started in March 2024, with operations set for Q1 2025. The project will generate 215.6 GWh annually, powering 55,000 homes and reducing CO2 emissions by 47,450 tons per year. 2002: Incorporation of ib vogt GmbH, focusing on PV factory engineering and project management.

What will ib vogt do in the future?

ib vogt has one of the largest pipelines in the world of any solar company. A key objective going forwards is to continue expanding our leading independent power producer ("IPP") model to leverage more business opportunities. We expect major growth in the BESS applications segment.

ib vogt is firmly committed to supporting the decarbonisation of the global electricity sector. The company focuses on the global development of turnkey PV plants and battery storage projects as well as the expansion of its IPP portfolio.
